

US Fire Equipment Online Catalog Guide:

Please allow the pages to be loaded before moving on after you have initiated. This will insure that that catalog pages are cached in your browser for ease of scrolling once the entire catalog has been downloaded. We will add more features soon! Average load time is 7-10 seconds with High Speed Broadband DSL.

Use the **1:1** button to view at original size this will enable the "hand" cursor to move the page area in view of the browser screen for readability

Click the **solid magnifying glass** to go back to safe browser size

To print a page or pages simply click the **print icon**

Type in page number from the Table of Contents page (TOC), **click the "go to page" button**. If it has not loaded prior please allow to load.

Use the **arrows** to flip through the pages
